Video Wall Controllers

Bring multiple sources into one clear operational view. Explore the Wall and Curve controller families for professional video wall projects.

View the current online brochure

Plan the wall around the work

Organize the information

Start with the sources your team needs to see, the layouts they use and the decisions the wall supports.

Match the configuration

Compare the input, output and processing options on each model page. Choose the configuration against your actual source and display requirements.

Connect control and workflow

Explore the Designer V platform alongside the hardware. Confirm the software version and integration scope for the selected controller.

Explore the product range

Published product information at the time of generation. Confirm the final model, configuration and system compatibility with our team.

Curve 16P

Easy to use videowall controller has Full HD inputs and outputs, hardware based controller is suitable for meeting rooms It has a feature such as source crop, resolution scaling, add high resolution images and HDCP compatibility The opportunity to customize the modular Curve series for your inputs and…
